

Secret Lures Announces the Meat Hook HD for Swimbaits

The Meat Hook HD was developed to meet the needs of today's swimbait fishermen. The HD hook is thicker, longer, and stronger than any other swimbait hook available. It combines a heavy duty screw-lock with a premium 7/0 or 8/0 Mustad Hook. The screw-lock makes rigging the bait a snap, and the tapered weight is molded for optimum balance. The straight hook shank and weight also lay closer to the belly of today's soft plastic swimbaits, making them perfect for heavy cover or vegetation.

The 7/0 Meat Hook HD is a 2.5" inches in length with a 1" hook gap, making it ideal for 5-6" swimbaits. For swimbaits 6" and larger, the 8/0 Meat Hook HD is perfect. It measures 3" in length and has a hook gap over 1" wide. We offer both hook sizes in four varieties: unweighted, 1/8 oz, 3/16 oz, and 1/4 oz. The Meat Hook HD will be available for \$5.49 per package through our retail network, in quantities of 3 weighted, or 4 unweighted, hooks per package.
